After the Final Whistle Blows: Politics & Policy in a Future South Africa

Take your conference beyond the FIFA World Cup!

Yes, the World Cup will bring great benefits to South Africa. But, are the advantages sustainable and what will the country be like once the players and visitors have left our shores? Can the Zuma administration expand our democracy and really provide for the poor – and middle classes? Will the ANC continue to rule or will its power-base slowly decline? And, what is SA's place within changing global context amidst a world-wide recession and the emergence of new political and economic powers? The answer to these questions and more can be found in Daniel Silke's provocative and predictive new South African keynote. Not to be missed!

"Informative and enlightening, Daniel delivers in an energetic & entertaining style. It was indeed the energy required to begin day two of our conference and set the tone for the rest of the day."
