Clem Sunter

**"Socrates and the Fox" - The latest scenarios of the World Economy
as well as South Africa's future from 2010**

Taken from his newly published book, co-authored with Chantell Ibury, Clem's new presentation blends Socrates, the Wise Philosopher; The Fox, Nature's Cleverest Animal, and a hint of Eastern Mysticism from one of the great scenario thinkers, Paul Wack, to form a strategic conversation model resulting in an agenda of ten questions which, if answered fearlessly and honestly, will give a clear idea of the future. As a result Clem will discuss the latest scenarios of the World Economy as well as South Africa's future from 2010.

In true Sunter style you will learn and benefit from this talk which, as usual, will be spiced with humour and laughs.

Following the outcome of the ANC's Polokwane Conference in December 2007, this detailed presentation chronicles the dramatic shift that has taken place within the ruling party and how it will impact upon South African society over the next 14 months in the run-up to the 2009 Election. In addition, this new Keynote will highlight the significant outcome of the conference, the new power-brokers within the ANC and the preparations for the all-important 2009 elections. It will focus on the ascent of the Zuma/Motlanthe faction and their fortunes as the country moves into election mode.

South Africa and the ANC have changed. This new Keynote will explain, analyze and interpret these changes.

Justin Cohen

"What's your story?"

How to tell stories that will • Inspire action • Enhance your brand • Lead positive change • Transform dead values into living behaviour • Impact on your bottom line

If you want to grow an organisational culture, share knowledge, sell a product or lead a team you need to use the oldest and most powerful form of influence, you need to tell a story. Stories are twice as likely to be remembered as abstract facts; they're the only way to overcome resistance and the best way to change behavior. Even when we're not speaking, our brand, offices, clothes and interpersonal style are telling a story. Finally there are the stories we tell ourselves, these are the source of our success or failure.

With a combination of cutting edge research, humor, entertaining stories and practical take-home tools, Justin will help your people master the ultimate form of influence – story telling!

Riaan Manser

New to our team of world-class speakers!

In a world first, almost incredibly, Riaan Manser rode a bicycle right around the continent of Africa . It took him two years, two months and fifteen days. He rode 36 500 kilometres through 34 different countries.

In his talk, Riaan tells the story of his epic journey. It is a story of blood, sweat, toil and tears. It is a story of triumph and occasional disaster. Of nights out under the stars, of searing heat and rain, of endless miles of Africa and of pressing on and never surrendering, whatever the odds.

Mostly, however, it is the story of one man's courage and determination to escape the mundane and see the continent he loves and feels so much a part of. It is the story of the human warmth he encounters, and occasionally human wrath and hostility as he crosses troubled countries and borders.

He has been a lifesaver, a surfer, and a rugby player. He is now a best-selling author and motivational speaker – and he's already decided on his next adventure – "Watch this space!"
